*Lesson 6: Getting Started***Purpose:**

Understand how to read weather maps.

**Guiding Questions:**

No guiding question for this sheet.

**Directions.** Use the maps on pages 96 and 97 in the textbook to answer the following questions.

1. Where on each map do you think it is cloudy? (Indicate which maps you are mentioning by using their map letter, A, B, or C.)
2. How do you think clouds form?
3. What do you think the H and L on the maps represent?
4. What types of weather would you expect in an area marked with an H? What evidence from the maps support your decision?
5. What type of weather would you expect in an area marked with an L? What evidence from the maps support your decision?
