

Unit ..... Handout .....  
4 ..... 123 .....

*WnC Summative: Helix*

**Directions.** Review the grading rubric with Mr. Ower so you are clear on the expectations for this summative. Follow verbal instructions as provided and write your responses in the spaces provided.

**Prediction: What do you think will happen to the paper helix if it is held above the hot lamp?**

[Large empty rectangular box for prediction response]

**Observation: What happens to the paper when the lamp is turned on?**

<p><i>Written Observations:</i></p>	<p><i>Drawing/Sketch:</i></p>
-------------------------------------	-------------------------------

**Explanation: Why do you think this happened? Describe what is happening and why.**

Blank space for writing an explanation.

*Use this space for graphics*

**Application: What might happen to the helix if it were held near an opened freezer door?**

Blank space for writing an application.

*Use this space for graphics*
