

Drawing and Measuring Blackworms

Purpose: Observe, sketch, and measure a blackworm.

Instructions: Pages 43-44 contains detailed instructions for this activity. In short, you will observe a blackworm using your microscope. It is essential that you remain on low power (red, 40X). This handout will be student sheet 3.1. Use the space provided below to record your data.

Take a photo of your drawing and insert it here.
