*Lesson 4: Larvae Inquiry Analysis*

**Purpose:** To reflect on the larvae food preference inquiry.

---

**Guiding Questions:** How do insects know which type of food to consume?

**Instructions:** Read pages 68-69 in the SDRO textbook. Then, use that information to help you answer the following questions.

1. Which plant (brussels sprouts, lettuce, or spinach) did the larvae prefer?
  
  
  
  
  
  
  
  
  
  
2. Why did the larvae prefer this plant?
  
  
  
  
  
  
  
  
  
  
3. What are other plants that the larvae would prefer? Why?
