

Unit 3 Handout 96

Lesson 9: Guiding Questions Review

Purpose: To reflect on this lesson and respond to the guiding questions that were asked on each of the Lesson 9 handouts.

Instructions: Take a few minutes to answer the following guided question from Lesson 9. Handout numbers are provided so you may return to them to answer the question. Below is a short rubric to help you understand what makes a good answer from a poor answer.

Score	Description
3	The student has written a response that fully responds to the question. Their answer includes several specific examples and uses vocabulary from the lesson. Their answers shows an understanding of the topic but is not overly wordy. The response is written in full and complete sentences.
2	Most but not all of a score 3.
1	The student has written a response that minimally responds to the question. The answer includes few or no specific examples and uses limited or no vocabulary from the lesson. Their answer shows a limited or no understanding of the topic. The response does not include full and complete sentences.

From Handouts 94 and 95. How are the movement of earth's plates connected to the formation and eruption of volcanoes?
