

Student Instructions for Monday, November 10th

Agenda:

1. Read pages 121-123 in IBI, "The Changing Pond"
2. Complete graphic organizer (handout 43)
3. Complete handout 42 (from Friday)
4. If you have time: Pond observations (handout 44)

Homework: Finish both handout 43 and 42 (from Friday). Many of you will get both of these done in class!

Detailed Check List

- _____ Read pages 121-123
- _____ Download handout 43, save it to Notability, and complete it.
- _____ Finish handout 42: use the images on 7bscience.com from Friday to help you if you still need to draw pictures. Drawing sheets are on the back prep table.

If you still have time left.....

- _____ Download handout 44:
 - _____ Find the pond with your table and period # on it (this is not your pond)
 - _____ Take a picture of it (top and side) and insert that into handout 44
 - _____ Write observations of the pond and how it has changed since you first made your pond. Compare it to the picture on handout 19.
 - _____ Make slides to observe for life in your ponds. Don't make drawings, just observe! Pipettes and organism ID sheets are on the front desk.
- _____ Clean up your materials. Get checked out by Mrs. Perry or the substitute.
